

# Who is this for?

**YOU TEACH SCIENCE, MATH,  
OR SOCIAL SCIENCE**

**YOU ARE CURIOUS ABOUT HOW  
THE BIG PICTURE FITS TOGETHER**

**YOU ARE READY  
TO BROADEN YOUR MIND**

# "Rediscover wonder."

There is something very special about discovering a part of the world you never knew existed. Many participants in our program have claimed that our visits are like "peering into the future." The truth is that this is the present, and those who take advantage of everything it has to offer will become better students in school and in life.

Visit [E2adventures.com](http://E2adventures.com) for more information, or call us at 514-996-7781 to reserve an behind-the-scenes experience for yourself or your class.

# E2 ADVENTURES

**PROFESSIONAL  
DEVELOPMENT  
OPPORTUNITIES  
FOR EDUCATORS**

**CURRICULUM-TIED  
AND DYNAMIC  
EXPERIENCES  
FOR STUDENTS**

**DISCOVER THE WORLD.  
JUMPSTART CURIOSITY.  
STRENGTHEN CLASSROOMS.**

INSPIRING STUDENTS AND FACULTY FROM:

You have never experienced anything like it.

**Imagine** winning a golden ticket to access the hidden world behind Quebec's largest laboratories, centres and factories. Behind these closed doors rest the legacies of our leading visionaries, innovators, entrepreneurs and scientists.

For the first time in many of their histories, mammoths such as Gaz Metro, Bombardier Aerospace and Peerless Clothing are unlocking their doors to a very limited number of educators or high school classes.

E2 Adventures exists to open these doors and coordinate visits for the education system. We work closely with educators to enhance curriculum, achieve greater student success and deliver valuable teacher training.

## Access for Educators

-- faculty only --

Modernize your knowledge of life outside the classroom through the eyes of Canada's leading experts.
